- Transaction starts from 1st July 2018 to 30th June 2019 and the day where no transaction is a Christmas day where the store is closed.
- The sales increase on December, a week before Christmas day the sales increases sharply.
- Kettle is the most popular brand followed by Smiths, Doris, and Pringles.
- Most frequent chip size purchased is 175 gr followed by 150 gr for all segments.
- The older families (budget) have the highest frequency of purchased followed by young/single couples.

Metrics Analysis

- Monthly sales increase on December and decrease on February. Monthly Sales on February is \$150.665.
- Monthly customer increase on December and also decrease on February.
- The average monthly transaction per customer is one. It means, the customers only purchase chips once a month.

01

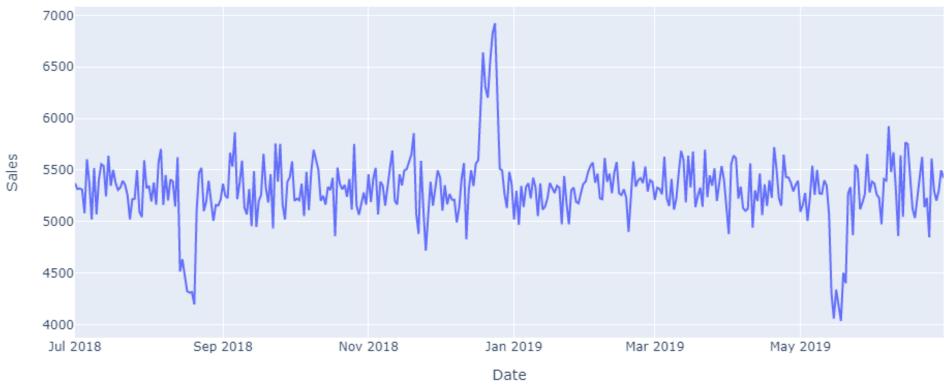

Customer Analytics

Sales Distribution

- The sales decrease on August (the second week of to the third week) and also on June.
- The sales increase on December (a week before Christmas day).
- The chip sales is around \$5000 to \$5500

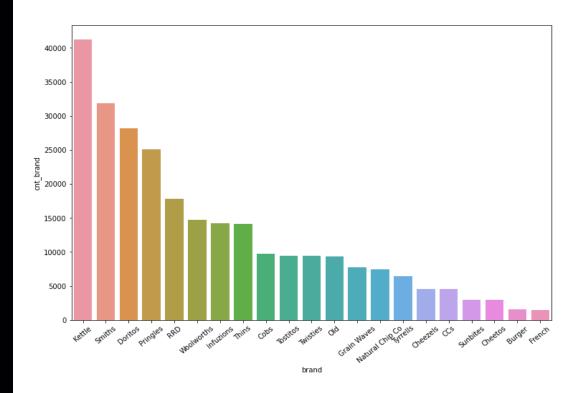

Time Period July 2018 - June 2019

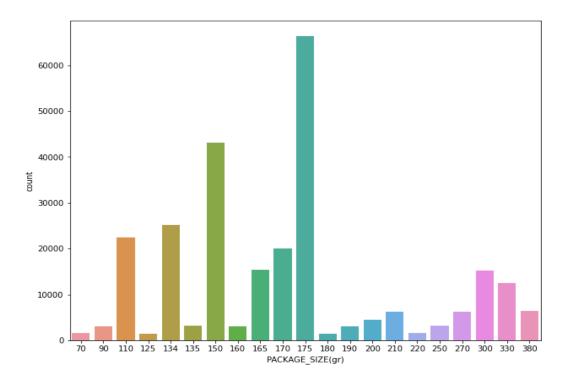

Brands and Package Sizes

- Most customers prefer to purchase chips from kettle brand followed by Doritos and Smiths.
- Most customers prefer to purchase chips by 175 gr package followed by 150 gr.
- The packs are popular among the customers because most of the customers purchase medium size packs and many produces such packs.

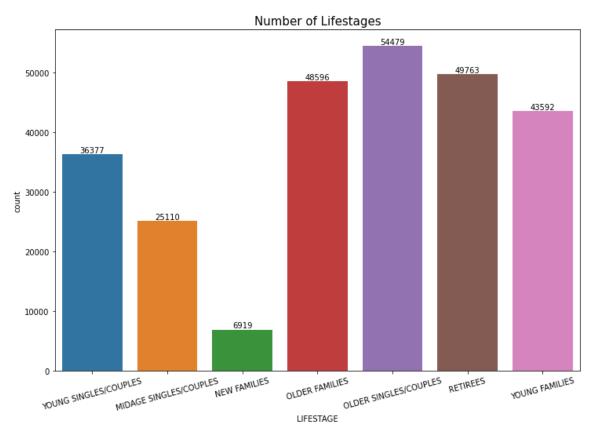

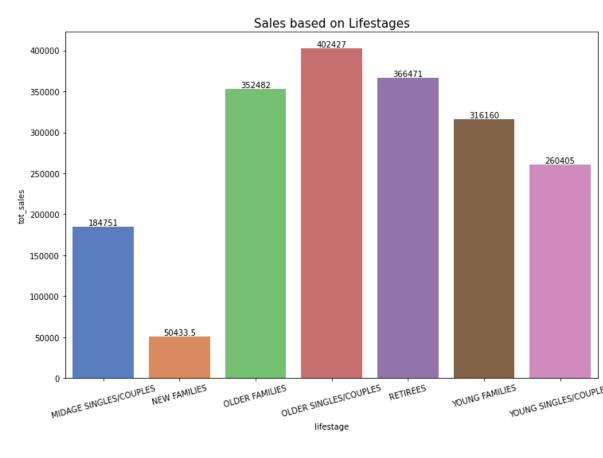

Number of Customers

- Mostly customers are from older singles/couples and followed by retirees and older families.
- If we see the sales by customers, the more customers you have the more you can earn.

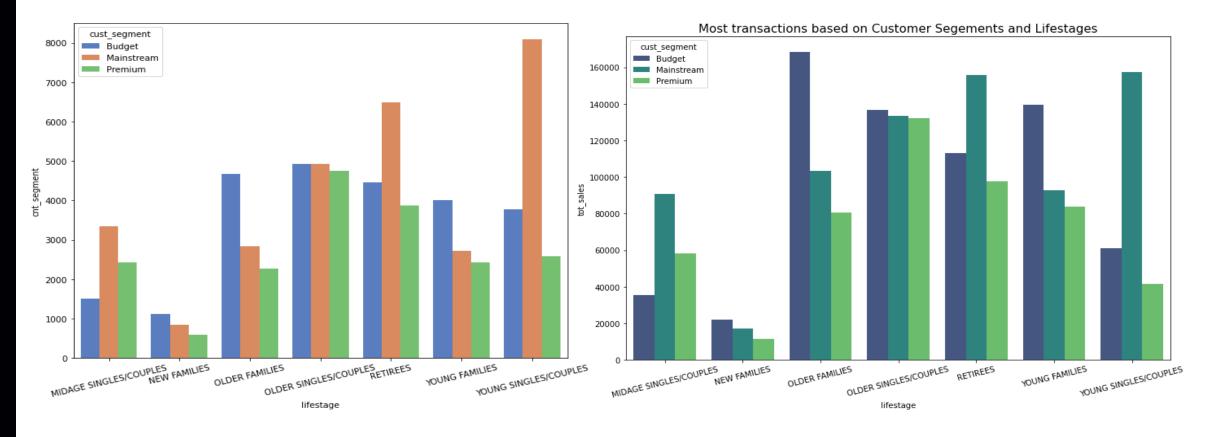

Number of Customers by Segment

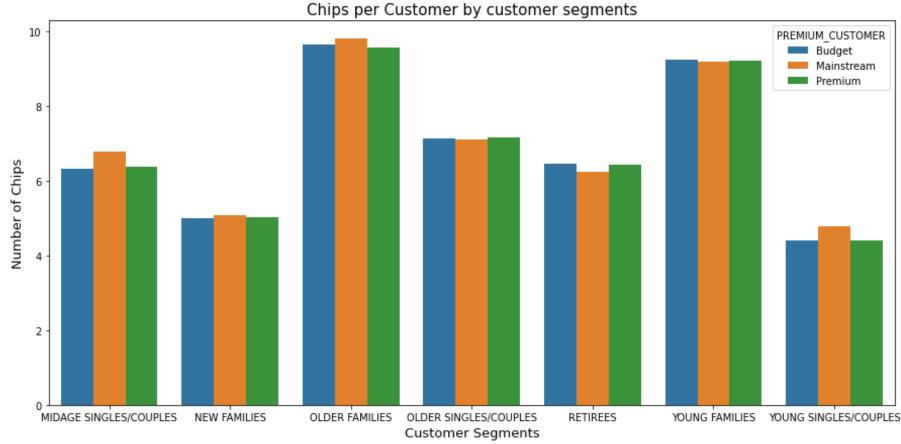

- Based on the segment, Mainstream Young Singles/Couples have the highest customers followed by Mainstream Retirees. New families in all segments have the lowest customers.
- We see the transaction by segments, Budget Older families, Mainstream Retirees, and Mainstream Young singles/ couples contribute to most sales.

Chips per Customers

- In all segments, older families purchase more chips per customer. That's why they make the biggest contribution to sales.
- In fact, new families buy more chips than young singles/couples. They also contribute the least to sales.
- Older Families and Young Families purchase more chips per customer than any other segment becausethey are likely to have children or relatives..

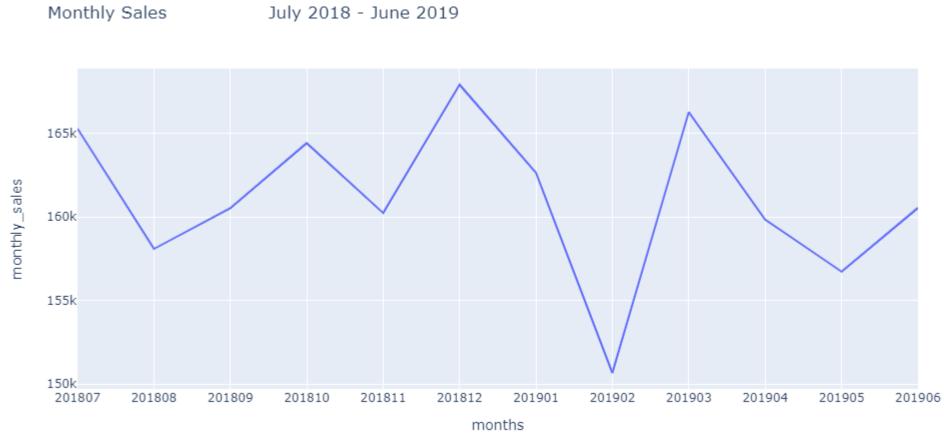

02

Metrics Analysis

Monthly Sales

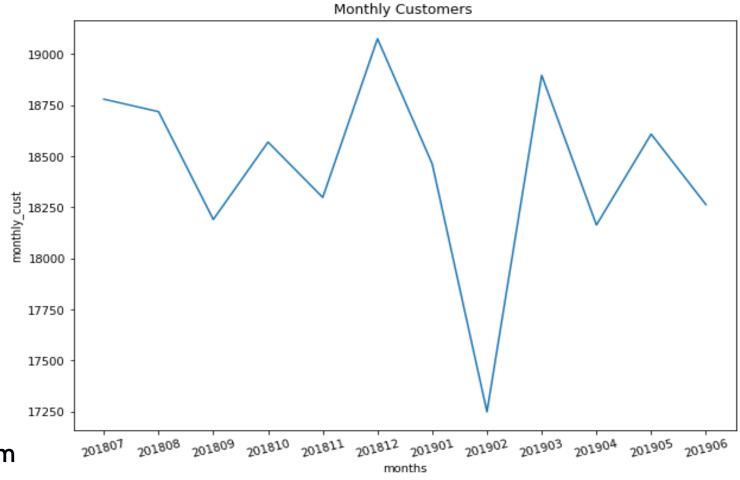

- The average sales of the month is \$161.094.
- The highest sales is on December which is \$167.913 and the lowest sales is on February which is \$150.665

Monthly Customers

- The average customer each month is 18,440.
- The highest customer is in December which is 19.076 and the lowest customer is in February which is 17.249.
- If we look at the trend between sales and customers, from July 2018 to March 2019. If the number of customers increases, so does the sales. If the number of customers decreases, so do the sales. But it is different from May 2019 to June 2019. If the number of customers increases, sales decrease.

Recommendations:

- Stocks need to be high in December before Christmas Day.
- Kettle, Smiths, Doritos and Pringles need to be stocked as they sell out the most.
- Budget Older Families, Mainstream Retirees, and Mainstream Young Singles/Couples need to be noticed as they generate high sales.
- Based on customers by segment, offer different promotions. For example, older families who spend \$50 save \$5.
- Multi-buy promotions for new families (i.e. buy 2 get 1 chip 70 gr)
